DETAILED ACTION

Terminal Disclaimer

1. The terminal disclaimer filed on December 16, 2004 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of U.S. Patent 6,671,047 B2 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Information Disclosure Statement

2. Receipt of the Information Disclosure Statement filed by the applicant on December 16, 2004 is acknowledged and has been considered by the examiner. Signed and initialed copies of the PTO-1449 are included with this office action.

Allowable Subject Matter

3. Claims 1-8 are allowable.

4. Claims 1 and 3 are allowable because the prior art of record, taken alone or in combination, fails to disclose or render obvious a method of evaluating characteristics of a semiconductor wafer comprising the steps of directing a polychromatic probe beam having both visible and ultraviolet wavelengths and a known polarization state to reflect off the surface of the sample, and monitoring the change in polarization state of the probe beam induced by reflection at a plurality of wavelengths and generating second output signals in response thereto, in combination with the rest of the limitations of the respective claims.

5. Claims 2 and 4-8 are allowable because they are dependent on independent claims 1 and 3 respectively.

Art Unit: 2877

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
